Contribution to the development and promotion of the Certification Scheme.

Elysée remains steadfast in its commitment to sustainability, integrating environmental responsibility into every aspect of its operations. By adopting innovative practices, aligning with international standards, and continuously striving for improvement, the company is dedicated to reducing its environmental footprint. Through its Green Elysée strategy, Elysée not only addresses the challenges of today but also paves the way for a more sustainable and resilient future, ensuring that environmental stewardship remains at the core of its values.

For a comprehensive understanding of Elysée's environmental initiatives, additional insights into the other focus areas of Pillar 4—namely Carbon Footprint (4.1), Green Energy (4.2), Zero Waste (4.3), Circular Economy (4.4), Green Products and Technologies for Sustainability (4.5), and Policy Framework & Environmental Certifications (4.6)—can be found in the corresponding reports. These documents provide detailed analyses and updates on the progress and strategies undertaken to achieve the objectives outlined in the Green Elysée strategy.
