STREAMING WATER
STREAMING LIFE

Founded in 1969, Elysée was initially dedicated to the cultivation of flowers. This gave the founders firsthand experience and a full understanding of the diversity of irrigation needs. With such knowledge and experience, the natural next step in the business was to start designing and developing irrigation systems. This was a stepping-stone to further expansion, this time into the field of water supply and piping systems.

Elysée currently manufactures and supplies piping and irrigation systems for agricultural, domestic and public use. Based in Cyprus, a key location at the crossroads of three continents, Elysée serves more than 65 destinations in Europe, the Middle East and beyond, reaching all 5 continents

Fit for the Job!

With a flexible organizational structure, Elysée ensures a quick response to customer enquiries, orders and opportunities for collaboration. New products are developed every year and are added to upgraded existing products to create a consistently growing range. Many years of experience in fittings design, manufacture and supply are reflected in new products which respond to customer needs, and in our ability to produce and deliver every order to its destination on schedule.

Quality has always been a major principle of Elysée's operations. But every principle is only as good as its application. Our quality management system is firmly in place, and ensures consistent, high-standard performance throughout the organization. Elysée's commitment to quality in all stages of production, starting from raw materials to sales is proven by our ISO9001 certifications.

We at Elysée realize that from a customer's perspective, the term "quality" covers both the product and the service. Our ever growing customer list reflects our determination to settle for nothing less.

CUSTOMER SERVICE

Enquiries and orders can reach us through our wide network of local agents and sales representatives. In case no local agent is available, we can be contacted through our webpage or by e-mail, fax or telephone.

Streaming Water. Streaming Life.

Our love for water led to Elysée conception. From all the resources in the planet we consider water as the most valuable. Water is a living cycle. It moves, transforms and makes life possible. Our respect for the value of natural resources and our commitment to preserve them has always been Elysée's primary concern.

Elysée has not only been one of the founders and initial members of Green Dot but it is also a conscious recycler. Our company is committed to maintain zero environmental footprint through operation of its production lines. For many years, Elysée has been involved in the management of the potable water's network. Known is our company's contribution to the preservation and management of Cyprus water resources, as it has been a pioneer in introducing advanced irrigation methods

Awards & Recognitions

Elysée operates from Cyprus, a key location at the crossroads of three continents, with a defined export orientation. As a result of this impressive export activity, the company has won important awards until today.

Recently Elysée was honored with the 2016 Special Export Award in recognition of outstanding effort in sales, organization and marketing abroad. This award is a by-product of our efforts to serve our customers both in Cyprus and around the world.

Production Site

The main production site operates on a lean philosophy and a flexible organizational structure. All services are concentrated on the same site to ensure minimum lead times and tailor-made products to suit the needs of diverse markets.

The plant comprises the Fittings Division and the Pipes Division. Combined with Quality Assurance Division they form the productive activities of the company. They are supported by Maintenance and Warehouse & Logistics to bring to life more than 2000 products that form the Elysée range.

Production relies on specialized and dedicated production equipment that represent the latest technology in the sector. Technology and innovation form the distinct role of R&D as well as production process optimization and productivity upgrade.

Compression Fittings

Description: Range of fittings for high-pressure conveyance of water, irrigation, gaseous fuels, compressed air, chemical solutions and slurries

Range:

- Metric series PN 16 Bar: from Ø 16 mm up to Ø 110 mm
- Metric series PN 10 Bar: from Ø 20 mm up to Ø 63 mm
- Push Fit series PN 16 Bar: Ø 20 mm - Ø 25 mm & Ø 32 mm
- Zeeflex Pool hose series: Ø 50 & Ø 63 mm
- Rural series PN 10 Bar: from ¾" to 2"

Pressure Rating: 16 bar at 20°C for fittings from Ø 16 mm up to Ø 63 mm
12,5 bar at 20°C for fittings from Ø 75 mm up to Ø 110 mm

Compression fittings are approved to bear the quality marks of:

Materials:

- Body, Cap & Insert: Polypropylene copolymer PP-B
- Polyvinyl Chloride PVC for Zeeflex series (Pool Hose Fittings)
- Split Ring: Polyacetal
- O-Ring: Elastomeric rubber NBR70
- Elastomeric rubber EPDM for Zeeflex series (Pool Hose Fittings)
- Reinforcing Ring: Stainless Steel

The fittings are approved for use in potable water supply systems

The fittings are suitable for exposure to sunlight (UV) with excellent chemical resistance

Refer to the technical manual for specific data sheets

Hydraulic Fittings

Description: Threaded plastic accessories with both male, and female type thread for use in hydraulic networks.

Range: From Ø 3/8" up to Ø 4"

Pressure Rating: 10 bar at 20°C for fittings from Ø 3/8" up to Ø 2"
6 bar at 20°C for fittings from Ø 2 1/2 up to Ø 4"
(For other working temperatures please refer to the technical sheet)

Materials: *Body:* Polypropylene copolymer PP-B
Reinforcing Ring: Stainless Steel

The fittings are suitable for use in potable water supply systems

The fittings are suitable for exposure to sunlight (UV) with excellent chemical resistance

Refer to the technical manual for specific data sheets

Saddles

Description: Plastic saddles for secondary line derivation from main lines of PE, PVC or PP for irrigation, high-pressure conveyance of water, chemical solutions and slurries.

Range: Clamping part from Ø 20mm up to Ø 315mm, threaded part from Ø ½" up to Ø 4"

Pressure Rating: 16 bar at 20°C for Ø 20 up to Ø 110 mm saddles, (Exceptions: 12.5 bar for threads 1¼" and above)
6 bar at 20°C for Ø 125 up to Ø 315 mm saddles

* Pressure Rating is achieved by the use of metal ring on threads

Materials:

<i>Body:</i>	Polypropylene copolymer PP-B
<i>Reinforcing Ring:</i>	Stainless Steel
<i>Bolts:</i>	Galvanized Steel or Stainless Steel

The fittings are suitable for use in potable water supply systems

The fittings are suitable for exposure to sunlight (UV) with excellent chemical resistance

Refer to the technical manual for specific data sheets

Light-Weight Fittings

Description: Light-weight fittings for irrigation networks and low-pressure conveyance of water.

Range: Barbed series from Ø 16mm up to Ø 25mm, threaded series from Ø ½" up to Ø 1"

Pressure Rating: 6 bar at 20°C

* For other working temperatures please refer to the company

Materials: Polyacetal or Polypropylene copolymer PP-B

The fittings are suitable for use in potable water supply systems

The fittings are suitable for exposure to sunlight (UV) with excellent chemical resistance

Products Configuration:

Refer to the technical manual for specific data sheets

Valves

Description: Main line equipment consisting of manual operated ball & mini valves suitable for a wide range of industrial, agricultural and domestic applications as well as other fluid applications

Range: Ball valves - From Ø ¾" up to Ø 4"
Mini valves - Large variety of configurations combining between threaded, barbed, safety, lock, grommet, take off, offtake, dripline, tape, tap, etc.
Patented and new look design

Pressure Rating: Ball valves - (Depending from the model) Up to 16 Bar at 20°C
Mini valves - Up to 4 Bar at 20°C
*Refer to the technical sheets for detailed information

Main Materials: ABS - Wide temperature range, ideal for chilled, condensate and cold water systems
Polypropylene - Tough and durable, ideal for many industrial, agricultural and domestic applications.

Features: Light-weight
Easy to install
Robust
Complete system matching
Complete actuation traceability

The products are suitable for exposure to sunlight (UV) with excellent chemical resistance

Refer to the technical manual for specific data sheets

Filters & Dosers

Description: Water filtration elements for agricultural, industrial and domestic applications

Range: Threads: $\frac{3}{4}$ " up to 3"
Filtration: 80 - 150 mesh
Flow rate: 5-20 m³/h

Pressure Rating: Maximum working pressure 8 bar at 20°C

Materials: *Body, Cap, Spine, Disc:* Polypropylene
Screen: Stainless Steel
"O"-Ring: NBR70

Filters are suitable for exposure to sunlight (UV) with excellent chemical resistance

Feature: Easy maintenance
Chemical & Fertilizers resistance

Refer to the technical manual for specific data sheets

Micro Irrigation

Description: Products and equipment for agricultural, gardening and landscape applications

Pressure Rating: Standard emitters & Bubblers from 0,5 to 2 Bar

Pressure compensated emitters from 0,5 to 4 Bar

Mini-sprinklers & sprayers from 1 to 3 Bar

Sprinklers from 1,5 to 3 Bar

All products are suitable for exposure to sunlight (UV) with excellent chemical resistance

Feature: Easy maintenance

Chemical & Fertilizers resistance

Turf

Description: Equipment for use in landscape, gardening and agricultural applications

Pressure Rating: Garden fittings rated up to 10 Bar
Static Pop Up's from 1 bar up to 2,5 Bar
Rotor Pop Up's from 1,5 Bar to 4 Bar
Impact Pop Up's from 1,5 Bar to 4 Bar

All products are suitable for exposure to sunlight and have good chemical resistance

Refer to the technical manual for specific data sheets

Polyethylene Pipes

Description: Polyethylene pipes for low- and high- pressure water supply, conveyance of other suitable fluids and irrigation systems.

Range: Metric series from Ø16 up to Ø 250mm,
Imperial series from Ø ½" up to Ø 1"

Pressure Rating: Pipes are available with pressure rating from 1 up to 25 bar at 20°C.
Maximum working pressure is related to the SDR (diameter/thickness ratio), the safety coefficient C and the MRS of the pipe material.
Pressure rating has to be adjusted as shown in the figure below, if the pipes are to be used at higher temperatures.

Joining methods: Pipes in the range Ø 16 - Ø 110mm can be joined by using Elysée compression fittings, pipes in the range 125 - 250mm butt fusion welding or electrofusion.

Pipes lengths: Straight lengths of 6 and 12 m or coils of 50, 100 or 200 meters

Materials: Low (PE32 & PE40), Medium and High Density PE pipes are approved for use in potable water supply systems. Black PE pipes are suitable for long exposure to sunlight (UV) and give excellent chemical resistance.

Refer to the technical manual for specific data sheets

Pressure Pipes

Description: UPVC, PPR, PERT pipes for hot and cold water supply under pressure.

Range: Metric series from Ø16 up to Ø 315mm,
Imperial series from Ø ½" up to Ø 1"

Pressure Rating: Pressure pipes are available with pressure rating from 6 up to 25 bar at 20°C.

The pressure has to be adjusted as pipes are to be used at higher tem-

shown in the figure below, if the peratures.

Joining methods: UPVC pressure pipes can be joined with elastomeric rubber ring socket or with glue-type fittings,
PP-R pipes with PP-R butt fusion fittings,
PE-RT with brass mechanical fittings.

Pipes lengths: UPVC pipes straight lengths of 3, 4 and 6m,
PP-R pipes straight lengths of 3, 4 and 6m,
PE-RT pipes rolls of 50m and 100m.

Color: UPVC pipes: Grey,
PP-R pipes: Off White or Green,
PE-RT: Black

Materials: Unplasticized Polyvinyl Chloride (UPVC),
PP-R (Polypropylene Random Copolymer),
PE-RT (Polyethylene Raised Temperature Resistance)

Pressure pipes are approved for use in potable water supply systems.

Pressure pipes are not suitable for long exposure to sunlight (UV) but give excellent chemical resistance.

In exterior installation, the pipes must be protected from direct sunlight by an insulating material.

Network Drainage

Description: UPVC pipes for drainage systems for water and conveyance of other fluids at low pressure.
UPVC pipes for sewerage systems and building installations.

Range: Metric series from Ø 50 up to Ø 400mm,

Pressure Rating: UPVC drainage pipes are available with a pressure rating of 4 bar at 20°C.

Joining methods: Pipes can be joined with straight socket and glue or with rubber ring socket.

Pipes lengths: Straight lengths of 3, 4 and 6m,

Color: Color coding on pipes and fittings

Drainage Pipes: Grey

Sewerage: Red - Brown

Materials: Unplasticized Polyvinyl Chloride (UPVC),

Drainage and sewerage pipes are not suitable for long exposure to sunlight (UV) but give excellent chemical resistance.

No. 880 (EN 12200)

Cable Applications

Description: U-PVC pipes for electrical & telecommunications piping systems used for protection and routing of wiring in houses, residential, commercial buildings and industrial plants.

Range: Conduits - Metric series from Ø 16mm up to Ø 32mm, also available Ø 38mm & Ø 56mm
Telecommunication pipes - Ø 90mm, Ø 110mm & Ø160 mm

Pipes lengths: Conduits are in straight lengths of 3m.
Telecommunication pipes are in straight lengths of 6m.

Materials: Unplasticized Polyvinyl Chloride (UPVC)

Features:

- Non conductor of electricity to prevent electrical shocks.
- High mechanical strength for buried and open trench application.
- Non corrosive in nature and immune to chemical corrosion.
- Light-weight to handle, install and transport.
- Smooth inner surface for easy wiring.
- Flexibility for long radius bending.
- Long lasting life with minimum maintenance

Certifications: Conduit systems are approved and certified to bear the CERTIF EN 61386 mark.

Also conduit pipes are CE marked.

Refer to the technical manual for specific data sheets

Plastic Pipes & Fittings for Building Industry

Description: Soil and Waste systems for commercial, industrial, housing and public sector developments

Range: Imperial series from Ø1¼" up to Ø4".

Joining methods: Pipes can be joined with straight socket and glue or with rubber ring socket.

Pipes lengths: Straight lengths of 3, 4 and 6m.

Color: Olive Grey, Black, White, Light Grey, Terracotta
 For fittings after the article number follows the color code digit:
 612(X)050 050
 OLIVE GREY digit : 0
 BLACK digit : 1
 WHITE digit : 2
 LIGHT GREY digit : 4
 TERRACOTTA digit : 7
 For example: 612 0 050 050 is for waste coupler double solvent olive grey

Materials: Unplasticized Polyvinyl Chloride (UPVC)

Features:

- Strong and durable
- Convenient joining
- Better flow characteristics
- Leak proof
- Resistant to moisture, corrosion, chemicals, abrasion & wear
- Long lasting with minimum maintenance

Certifications & recognitions: Soil and Waste systems are certified to bear the CERTIF EN 1329 mark.

Refer to the technical manual for specific data sheets

NOTES

NOTES

General Terms & Condition Supply

INTRODUCTION

Our supplies include the products specified in our "sales confirmation" and are subject to the following terms and conditions which the customer declares to know and to accept,

excepting possible derogation stated in a written agreement. "Incoterms", as defined by the International Chamber of Commerce, shall govern all the foreign supplies.

PRODUCTS

In order to avoid any misunderstandings, it is advisable to refer to the names and the codes of our catalogues and/or price lists for the indication of the products.

PACKAGING

To reduce the delivery time and to help the customer stock the products, we reserve the right to convert the requested quantities in multiples of the standard packages, as shown in our catalogues.

Packaging is restricted to the standard dimensions of containers.

20 Feet container: 2.35 x 2.35 x 5.95 meters

40 Feet container: 2.35 x 2.35 x 12.00 meters

40 Feet HC container: 2.35 x 2.70 x 12.00 meters

Dimensions of our master carton 56 x 48 x 32.5 cm.

Dimensions of our half size carton 28 x 48 x 32.5 cm.

Capacity 1 x 20 container:

333 loose cartons (288 on pallets)

Capacity 1 x 40 container:

671 loose cartons (576 on pallets)

Capacity 1 x 40 HC container:

767 loose cartons (672 on pallets)

Elysee recommends this option.

Actual packaging will appear on the Proforma invoice.

INTDELIVERY

It has to be assumed ex- our warehouses and/or stores. We will indicate the delivery time terms for not available items.

SHIPMENT

Shipment terms will be shown on our Proforma invoice. The goods travel at the purchaser's own risk.

PAYMENT

For overseas supplies payments should be effected by opening an irrevocable confirmed letter of credit or,

1. Against draft or bank receipt at sight,
2. Against other form of payments to be agreed upon.

OWNERSHIP CLAUSE

The products supplied by us will remain our property until fully paid.

GUARANTEE

We guarantee the good quality of our products in compliance with the standard listed in our catalogues. Our warranty will limit to the replacement of the faulty products, excluding

any other liability in particular for damages caused, if any, whatsoever by utilization of our products.

This guarantee terminates and will be no longer valid one year after the delivery of the goods supplied.

CLAIMS

Only claims reaching us by written communication within 30 days after invoicing date will be taken into consideration.

CUSTOMER SERVICE

Our technical and commercial departments are available to the customers to provide any information on the characteristics and the application fields of our products.

Note: • Small box (Half size)
